Democracy and diversity

For us, social justice is only possible based on democracy and participation. This includes enabling accessibility and inclusion by means of equality, engagement, and self-determination. The fight for a (city) society in which people do not have to compromise, or worse, hide, their identity and individuality lies at the heart of our green politics. Moreover, we fight for a society which people can live and participate in safely, free of discrimination, and in self-determination. This includes enabling a strong, thriving cultural life in the city.

That's why we stand for...

- **more participation through stronger citizens' councils and more engagement**
- **the recognition of and equality for all genders**
- **an action-plan to achieve equal opportunities and treatment for the LGBTQI community**
- **more facilities to provide support for people who suffer domestic violence**
- **public all-gender-toilets**
- **free sanitary products (sanitary towels, tampons) in public toilets**
- **electronic health cards for displaced and illegalised people**
- **the active promotion of culture in Göttingen, especially of social culture**
- **a support structure for the creative industry provided by local politics**

Economy and public administration

We GRÜNE want to promote the local economy in a way that preserves good, safe jobs, creates new ones, and is bound to the 'economy of the common good' concept. We want companies that work sustainably to stay in Göttingen and to be able to develop. We support spin-off companies from the science sector and will improve conditions for local trade and shops. Through sustainable promotion and funding, we can further establish Göttingen as the place to be for science and business.

That's why we stand for...

- **making the city centre a more attractive place to spend time**
- **local vocational training associations to support local craft(wo)manship**
- **the digitalisation of public administration facilities**
- **better measures to stop long-term unemployment**
- **citizens' councils**
- **the rollout of broadband networks**
- **more co-working spaces in all neighbourhoods**
- **the city and the region administrations working together more intensively**

Postal vote now!

Stadtverband
BÜNDNIS 90 / DIE GRÜNEN

**SHORT ELECTION PROGRAMME
FOR THE LOCAL ELECTIONS 2021**

**GÖTTINGEN -
BETTER IN GREEN**

Change begins here.

GÖTTINGEN - BETTER IN GREEN

Our concepts for:

**Climate, environment,
sustainable mobility**

Education and Social Welfare

Democracy and diversity

Change begins here.

In the next five years, we,

**BÜNDNIS 90 / DIE GRÜNEN,
Stadtverband Göttingen**

will shape a more sustainable city that is a pleasure to live in. With us, Göttingen will become more social, more inclusive, and more united. The next few years will be decisive in containing the climate crisis and environmental destruction. At the same time, we must strengthen social cohesion, fight racism, and refine the democratic coexistence in our city. Guided by a political system developed with and shaped by you, our offer is a city that enables us all to enjoy the benefits of an urban environment.

**Climate, environment,
sustainable mobility**

The manmade climate crisis is a huge threat to our livelihoods and to natural and biological diversity. Thus, for us, the Paris Climate Agreement 1.5-degree goal is not negotiable. All efforts of the city administration and council must aim at reaching carbon neutrality in Göttingen by 2030. The transition of the energy system must be tackled with resolve, taking into account the potential of different types of renewable energy in our city. The Göttingen we want provides enough green spaces to relax, clean air to breathe, and, thus, an enhanced quality of life for her inhabitants.

That's why we stand for...

- **a car-free city centre**
- **a 30 km/h speed limit within the city boundaries**
- **building sustainably**
- **one large tree per 10 parking spaces**
- **„greening“ all non-built-up spaces**
- **enabling bi-directional cycling on one-way streets**
- **more car-free bus and bicycle roads**
- **replacing motorised delivery transport with cargo-bikes and electric vehicles in the city centre**

Education and Social Welfare

Everybody should be able to live in Göttingen safely, free of discrimination, and enjoying equal rights. We want a family-friendly city – for traditional, patchwork, one parent, or rainbow families. In our Göttingen, the quality of someone's education does not depend on their social status, housing is affordable for everybody, and pleasant neighbourhoods encourage social cohesion. For us, good healthcare provision and sanction-free social services are key to achieve a high quality of life in our city.

That's why we stand for...

- **improved capacities for pre-schools and kindergartens in all neighbourhoods**
- **individualised support for educationally disadvantaged people**
- **inclusion and participation opportunities for people with disabilities**
- **more affordable housing**
- **innovative and common good-orientated housing concepts**
- **measures against speculation with and neglect of rental properties**
- **more resources for the public health and care sectors**

**12.9.:
vote green!**
